

Scholarship Renewal

Congratulations on being awarded an academic scholarship from Truman State University. Based upon the strength of your previous academic achievement, we feel confident that you have the potential to make outstanding contributions to the University community. Please take note of the following scholarship renewal requirements:

1. Students earning a cumulative GPA of 3.25 or above while completing at least 24 hours of credit per academic year at Truman may renew all academic scholarship(s) by completing scholarship renewal service. Renewal of scholarships for students earning a cumulative Truman GPA below 3.25 is subject to available funding.

Cumulative Truman GPA	% of Original Scholarship Amount
3.25 or higher	100%
3.20-3.24	90%
3.10-3.19	80%
3.00-3.09	70%

2. Scholarship renewal service of 60 hours per semester (an average of 4 hours per week) begins in the sophomore year. Renewing students submit proposals for their service projects. Examples of service include research for a faculty member in your academic major, service to a University office, a special project related to an interest area or assistance in a community non-profit organization.

3. The service obligation is required of students receiving more than \$2,500 per year (\$1,250 per semester) in Truman scholarship(s).

4. Students opting not to perform the service obligation may renew one half of their approved scholarship amounts.

5. Scholarship renewal is determined at the end of the academic year based upon Truman GPA. Transfer hours are not credited toward scholarship renewal.

6. Scholarships can be renewed, but not lost, because of Truman summer coursework. GPA including summer coursework will be calculated following the second summer session.

7. Unless otherwise stated, scholarships awarded to beginning freshmen can be used for up to eight semesters. Length of potential scholarship eligibility for transfer students is as follows:

Transfer Credit	Eligibility
12-29.9 hours	eight semesters
30-59.9 hours	seven semesters
60-89.9 hours	five semesters
90 hours or more	three semesters

8. Students who increase their Truman GPA (either to renewal range or to a higher level of renewal percentage) after any term of enrollment, should contact the Financial Aid Office regarding potential change in their renewal status.

9. Students who do not meet renewal requirements should consult with the Financial Aid Office regarding potential eligibility for other forms of assistance.

10. Truman undergraduate scholarships are designed to provide assistance for completion of the initial baccalaureate degree program(s).

11. Renewal of Midwest Student Exchange Program (MSEP) is based upon satisfactory academic progress. Individuals from MSEP states (Illinois, Indiana, Kansas, Michigan, Minnesota, Nebraska, North Dakota or Wisconsin) who receive a Non-Resident Tuition Scholarship (NRTS) will have awards converted to a combination of MSEP and NRTS for renewal purposes. The NRTS portion will be subject to regular scholarship renewal requirements.
