## REMOTE ACCESS TO COMPUTER LABS NOW AVAILABLE

From their personal computers, students can now use a Truman computer lab PC and all the lab software just like they were physically sitting in the lab!

This is a solution for situations such as:  
the computer lab is full; the computer lab is closed; the software has restricted licensing and is only available in the computer lab; the student is off campus; the student is at home; the student is sick; or the weather is bad.

More information is available at <https://secure.truman.edu/its-s/viewclient>.

## Strategic Planning Advisory Committee Forums

The forums will give students, faculty and staff opportunities to provide the committee with additional input regarding Truman's priorities for the next five years. If you are unable to attend the forums, visit <http://spac.truman.edu> and respond to the questions online. The remaining events are:

## Accountancy Students Rank Ninth Nationally

According to the recently released report by the National Association of State Boards of Accountancy, Truman's Master of Accountancy students ranked ninth in the nation for the percentage of students passing all four parts of the May 2009 Certified Public Accountant exam on the first attempt.

This achievement puts Truman students in the company of those from Wake Forest University, the University of Michigan and Notre Dame University. Truman also surpassed Loyola University of Chicago, Marquette University and Texas A&M University.

On the individual exams, Truman students ranked fourth in the nation on Regulation.

Missouri was named one of 25 honor roll states. This designation is reserved for states whose candidates achieved passing grades in every subject area at a rate higher than the national average.

For the past five out of seven years, Truman students have ranked in the top 10 in the nation. Seventy-one percent of the Truman students passed all four parts on the first attempt, compared to the national average of 8 percent.

Truman and the School of Business are known for their history of assessing and monitoring the educational process to ensure student success. Faculty members in the accounting program credit Truman's consistent high achievement on the CPA exam to a number of factors, including bright students, a rigorous curriculum and an emphasis on student learning.

Truman is one of only 167 business schools in the world accredited in both business and accounting by the Association to Advance Collegiate Schools of Business (AACSB International), the premier accrediting agency for schools and programs of business.

## New Music Festival to Feature Guest Composer

The Truman Department of Music, Phi Mu Alpha Sinfonia, Sigma Alpha Iota and The Mostly Live Composers Society will host the 2010 New Music Festival Oct. 28-29.

The festival will feature guest composer Cary Boyce, winner of the 2010 Truman MACRO Composition Competition. An internationally recognized, award-winning composer of music for film, television and the concert hall, Boyce is also an active participant in diverse artistic and musical outreach endeavors. He acts as producer and music essayist for public radio, online journals, major orchestras and community presses.

Boyce will speak to music classes, work with student composers in a master class and rehearse with Truman musicians during his visit.

The festival includes two concerts of new works by Boyce, Truman composers and other contemporary composers. Boyce will talk about his music at both events.

At 7:30 p.m. Oct. 28 in the Ophelia Parrish

Performance Hall, Boyce's new composition "There Will Be Rest" will be premiered by Truman's choral ensemble "Cantoria" and members of the Truman Symphony Orchestra under the direction of Mark Jennings. This work was specially commissioned for this occasion by the University's chapters of Phi Mu Alpha Sinfonia and Sigma Alpha Iota. In addition to the premiere, a variety of new instrumental and choral music will be presented by several of Truman's large ensembles.

From 1:30-3 p.m. Oct. 29 in Ophelia Parrish, chamber music by Truman composers and others will be performed. The Mendota Duo from the University of Wisconsin will also be special guest performers. The program will again feature music composed by Boyce.

The festival is free and open to the public. For further information, contact [wgooch@truman.edu](mailto:wgooch@truman.edu) or 785.4429. Additional information on Boyce is available at <http://caryboyce.com>.

## BOOKSTORE SUPPORTS BREAST CANCER RESEARCH

The Truman Bookstore has launched an innovative program during National Breast Cancer Awareness Month that will let students support breast cancer research by temporarily changing their Facebook profile picture.

Through this program, Barnes & Noble College Booksellers, which operates the Truman Bookstore, will donate \$1 to the National Breast Cancer Coalition (NBCC)-up to \$5,000 for every student who changes their profile picture to the breast cancer awareness pink ribbon symbol during the month of October.

The Truman Bookstore kicked off the promotion by changing its Facebook profile picture to the pink ribbon symbol. Fans can save that picture to their desktop, upload it as their own profile picture and then leave a comment on the bookstore's fan page.

Fans do not need to use the pink ribbon as their profile picture for the entire month. As long as they use it at some point in October and leave a comment on the bookstore's fan page, their participation will be counted toward the donation.

To become a fan, search "Truman State University Bookstore" on Facebook.

This award is available to seniors eligible to graduate in the 2010-2011 academic year (December, May, or August) who have at least a 2.75 cumulative grade point average and who have demonstrated leadership with campus or community involvement. Applications are evaluated based on the excellence of the student's academic record; character; breadth and depth of leadership and service to the University; and community and representation of/impact upon Truman.

Who's Who recipients will be announced at the end of the fall semester. A luncheon will take place

in the spring to honor the recipients and their families.

# Equestrian Team Ranked No. 1 in Region

The Equestrian Team is off to a successful start this semester after its first three shows.

The team hosted the first show of the season at the University Farm Sept. 25-26. This was the very first show for the newly formed IHSA zone 7, region 5, which includes schools from Missouri and Illinois. The stock team placed third on both days out of the eight teams that traveled to compete in Kirksville. Three riders, Kaity Strand, Adam Priest and Kate Miluski, pointed up to the next division, qualifying them for the regional competition in the spring.

The following weekend, the hunt team traveled to Southern Illinois University-Carbondale. The hunt team placed reserve high point team on Oct. 2, and Amanda Brehm, Stephanie Crecelius, Jane Rademacher qualified for regionals.

On Oct. 9-10, the hunt team, along with six of the University's horses, traveled to Bloomington, Ill., where it co-hosted a show with Illinois State University. The show was another success with the team placing high point team on both days, putting it in the lead in the region overall for the year.

Additionally, Corinne Smith and Stephanie Crecelius achieved reserve high point riders and Smith and Danielle Witt qualified for regional competition.

The Equestrian Team has grown to more than 100 members with nearly half participating in IHSA horse shows. There are three more shows remaining for the team this semester.
