Truman Ranks Second in the Nation on CPA Exam

A ccording to a recently released report by the National Association of State Boards of Accountancy, Truman State University's Master of Accountancy students ranked second in the nation for the percentage of students passing all four parts of the May 2003 Certified Public Accountant exam on the first attempt. Truman students earned the fourth spot in the nation on the May 2002 exam.

Fifty-three percent of the Truman students passed all four parts on the first attempt, compared to the national average of 20 percent. On the individual exams, Truman students ranked first in the nation on the accounting and reporting exam, second in the nation on the auditing exam, and sixth in the nation on the financial accounting and reporting and the business law and professional responsibilities exams.

Missouri was named one of 18 honor roll states. This designation is reserved for states whose candidates achieved passing grades in every subject area at a rate higher than the national average.

One Truman student earned the bronze medal for the third highest score in the state of Missouri. Four of the top 10 scores in Missouri were earned by Truman students.

Truman students have consistently scored well on the CPA exam. During the last five years, Truman has had the highest percentage pass rate in Missouri among students with advanced degrees. Sixty-two percent of Truman students that took the CPA exam between 1999 and 2003 passed all four parts on their first attempt. This is compared with a pass rate of 41 percent at Washington University and a 40 percent pass rate for the University of Missouri-Columbia.

PINs to be Used to Access Library Accounts

A new security feature was implemented in the Library catalog Jan. 3. To access your Library account or to borrow books from the LANCE cluster you will need to enter a Personal Identification Number (PIN) in addition to your name and campus ID plus TSU; you will be notified of this change by the system when you try to perform these functions.

The PIN can be any alpha-numeric string, four to 30 characters long. The system will provide onscreen information for creating a PIN, but if you have any questions or problems please call the Pickler Memorial Library Circulation Desk at 785.4533, or the department supervisor, Gayla McHenry at 785.4037. If you forget your PIN, please call the telephone numbers mentioned above and staff will clear it out of your Library record so you can enter a new one. PINs are encrypted in the Library system when they are created; staff will not know your PIN, they can only clear it from your record. At this time, a PIN will be needed for access to your Library account or to borrow from the LANCE cluster only; a PIN is not required to borrow from the MOBIUS Central Catalog.

The Library system is separate from the Banner system and TruView and the PIN you use for the Library system does not affect PINs you use for other systems.
