## Truman Students Excel on CPA Exam

According to recently released statistics, Truman students were among the most successful in the country at the Certified Public Accountants (CPA) examination.

The National Association of States Boards of Accountancy (NASBA) has released the summary statistics for candidates taking the CPA examination during 2011. Truman graduates performed exceptionally well during this exam period.

NASBA classified institutions by the number of candidates taking sections of the CPA exam and published rankings by classification. Truman was classified as a "large" program having 80 individual candidates complete a total of 256 CPA exam sections.

The candidates passed 78.9 percent of sections taken with an average score of 80.4, placing fourth

in the nation among large programs.

Among all institutions with 10 or more reported candidates, Truman ranked ninth in the nation. Truman graduates had the highest success rate of all universities in the state. Other Missouri institutions ranked in the top 40 were: Washington University at No. 11; the University of Missouri-Kansas City at No. 22; and the University of Missouri-Columbia at No. 30.

Truman is one of only 178 universities worldwide accredited in both business and accounting by AACSB International-The Association to Advance Collegiate Schools of Business.

Founded in 1916, AACSB is the longest serving global accrediting body for business schools that offer bachelor's, master's and doctorate degrees in business and accounting.

## Cyclists Need to Follow Campus Guidelines

Bicycling is a popular mode of transportation for many to and from campus. As the school year begins, the Office of Public Safety wants to remind all cyclists of the campus guidelines.

Anyone operating a bicycle must obey the same traffic control regulations that apply to cars and motorcycles, such as stopping for stop signs and riding in the right-hand portion of the roadway. Bicycles which are ridden after dark must be equipped with a headlight, large red reflector on the rear, and white or amber pedal and spoke reflectors.

Bicycles parked on campus must be left in bicycle racks, which are provided in convenient locations. Bikes are not to be left in buildings, entrances, ramps or any other hazardous location.

They should not be attached to any trees or light poles. Bicycles which are illegally parked are subject to parking tickets and/or confiscation by the Department of Public Safety. Bicycles should be ridden on streets, not on sidewalks, lawns or parkways that are property of Truman.

Students are strongly encouraged to register their bikes with Public Safety. Registration permits are issued free of charge. More information on the biking policies may be found at [police.truman.edu/parkingservices/parkServ.asp](http://police.truman.edu/parkingservices/parkServ.asp).

The Bike Co-op, located near Grim Hall on Patterson Street, is a student organization that runs a bike workshop equipped with tools to do most repairs on bicycles. Its purpose is to teach people how to repair their own bikes.

# Student Research Grants Now Available

The Office of Student Research (OSR) is now accepting Grants-In-Aid-of-Scholarship and Research (GIASR) applications for research and creative activities to be conducted during the Fall 2012 semester.

The purpose of these grants is to promote a culture of research, scholarship and creative activity at Truman while providing flexibility to accommodate different research styles and requirements. Projects supported by this program should involve original ideas but may encompass a variety of activities including obtaining preliminary data or information, exploring new topics and continuing ongoing projects. The OSR anticipates awarding five to eight GIASR grants

(up to \$750 each) per semester depending on availability of funds.

Students must be current Truman undergraduates or graduate students and be mentored by a Truman faculty member. Grant applications may request up to \$750 and can cover student stipends as well as supplies and travel to conduct the research. Complete guidelines can be found at the Office of Student Research website, [osr.truman.edu](http://osr.truman.edu).

All students that wish to be considered for GIASR Fall 2012 funding should submit applications online at [secure.truman.edu/osr-s](http://secure.truman.edu/osr-s) by 11:59 p.m. Aug. 30. Email any questions about the OSR programs to [osr@truman.edu](mailto:osr@truman.edu).

## GUIDELINES FOR USING THE UNIVERSITY LOGO

During the school year, many Truman offices and student organization will want to create Truman State University related memorabilia with the name of the University or one of the University logos. The University does have a Logo and Style guide that contains standards for consistency for the Truman identity system and if anyone is interested in using the name of the University or its logos, those specific guidelines must be followed at all times. Because the name and logo are licensed, it is best to work directly with the Publications Office on how the name or logo might be used. Information on the main variations of the logo can be found online at [publications.truman.edu/logoUsageGuide.asp](http://publications.truman.edu/logoUsageGuide.asp). For questions concerning use of the Truman name or logos, contact the Publications Office at 785.4692.

**MEMORIAL LIBRARY**

**New Library Service Desk**

Over the summer, Pickler Memorial Library combined the Reference and Circulation desks to create a one-stop service area. The front desk, now known as the Library Service Desk, is where library users can check out materials and ask all of their questions. For inquiries that cannot be handled at the Library Service Desk, patrons will be connected with the on-call reference librarian for further assistance. Members of the Reference Department will be constantly on call to assist patrons with using the library catalog, locating materials, searching online databases and other research related questions.

By using an on-call system, the library can provide the same reference services as in the past without having to be tied to a physical desk. In fact, the Reference Department has gone "mobile" and will be roaming throughout the library on a regular basis to provide assistance to patrons in other locations. With new iPads, librarians will have constant access to the library catalog, article databases and the Internet from anywhere in the building. The former Reference Desk has become the space for the laser printer and photocopiers as well as other office items like the paper cutter, pencil sharpener, stapler and comb binder. Stop by the new Library Service Desk or call 785.4051 with any questions.

**Emergency Text Message Notification**

Students interested in receiving emergency notices through the text messaging function on their phones can sign up for this service through TruView. Click the "Student" tab and then "Update Emergency Text Messaging Information." The Emergency Response Guide is also available at [police.truman.edu](http://police.truman.edu).

**NEXT ISSUE**
