Class toward minor or area of interest

Most Spanish majors study abroad. In this case, the student could choose to participate in a faculty-led summer program to Spain or Costa Rica after the freshman or sophomore year for 6 hours of major credit and 6 hours of elective credit OR s/he could study abroad for an entire semester and transfer 9 hours of credit into the major. The remaining credit earned could be applied to a second major, a minor, or used as general elective credit.

Department chair: please contact the Center for Academic Excellence with any updates to the plan above.
