“ In short, the Accounting program (and School of Business as a whole) has changed the entire path of my professional career. More than just a few professors in the department have set aside significant amounts of time to give me quality advice regarding graduate school, career options, and life in general. These professors genuinely care about their students' futures and have invested so much in me personally that many of my professional opportunities are due to them. ”

— JOSH WOODMANSEE, December 2018 graduate
