The President of the University is authorized to establish a schedule of enrollment fees, based on the fees for full-time students, for students enrolled in other University classes and workshops, both on-campus and off-campus, including but not limited to the fees for part-time students, students enrolled on an overload basis, and students enrolled during interim or summer semesters. The President, and his or her designees, are authorized to establish policies and procedures for payments, refunds, and other administrative matters. 11.020. Housing Charges. Housing charges for major categories of room and/or board are set annually by the Board of Governors, and such charges continue in force until revised by the Board. The President of the University is authorized to establish other room and/or board charges including but not limited to

room and board charges for students living in University housing during summer semesters or any other periods shorter or longer than an academic year, optional board charges for students not living in the residence halls, room and board charges for residence hall students who elect to utilize 15 meals per week or other alternate food plans agreed upon by the food service contractor and the University, and charges for rooms in the apartment buildings being used as residence hall rooms when needed for that purpose. The President, and his or her designees, are authorized to establish policies and procedures for payments, deposits, refunds, and other administrative matters. 11.050. Allocation of Fees to Student Union. The designated fee for the Student Union is the amount most recently approved by the Board of Governors. Such amounts are allocated from the regular student fees established by the Board of Governors and are not separate fees to be paid by the students. The designated fees for the Student Union are computed on the basis of the full-time equivalent (FTE) enrollment of all students for each semester.

11.070. Residency for Fee Purposes. For the purpose of permitting in-state fees, Missouri residence is determined in the following manner.

11.070.1. Criteria. The rule adopted by the Department of Higher Education for determination of student residency, together with any amendments or substitutions of such rule subsequently adopted by the Department of Higher Education, is used to determine student residency at the University.

11.070.2. Application for Resident Status. Students who are classified by the University as non-residents and who believe they are entitled to resident status may seek a change in their classification by filing appropriate applications with the Registrar. The Registrar reviews each application and then notifies the student of the action on his or her application for residency status.

11.070.3. Appeals. A student whose application for resident status is denied by the Registrar may appeal such decision to the Vice President for Enrollment Management by filing a written request for such an appeal within two weeks after receipt of the Registrar's decision. After providing an opportunity for the student to be heard, the Vice President for Enrollment Management either affirms or denies the appeal and then notifies the student of his or her decision. A student whose appeal is denied by the Vice President for Enrollment Management may appeal such decision to the Executive Vice President for Academic Affairs and Provost by filing a written request for such an appeal within two weeks after receipt of the Vice President for Enrollment Management's decision. After providing an opportunity for the student to be heard, the Executive Vice President for Academic Affairs and Provost, or his or her designee, either affirms or denies the appeal and then notifies the student of his or her decision, which shall be final on behalf of the University.

11.070.4. Designees. 1. Age: For purpose of the fee waiver, a Senior Citizen shall be any person 65 years of age or older as of the date of application.

11.090. Faculty and Staff Discount for Enrollment Fees. Current officers and full-time employees of the University hired prior to September 1, 2012 are accorded a 75 percent reduction in enrollment fees for classes for academic credit at the University. The same reduction is accorded to spouses and children of such officers or full-time employees. The same reduction is also accorded to former full-time employees and to their spouses and children, if such former full-time employee:

- (1) is disabled and has been granted a written leave of absence from the University due to such disability, or
- (2) has retired from the University and been granted emeritus status, or
- (3) has retired from the University with a minimum of fifteen (15) years of service to the University, or
- (4) has completed at least ten years full time-employment service with the University and who was employed by the University on a full-time basis at the time of his or her death.

For all new full-time employees hired after September 1, 2012, the following additional rules shall apply:

- (1) New full-time employees must be employed by the University for one year before they will be accorded a 75 percent reduction in enrollment fees for classes for academic credit at the University.
- (2) This same waiting period shall apply to spouses and children of such new full-time employees. The amount of the fee reduction for classes for academic credit at the University for spouses and children of new full-time employees shall be 75 percent.

11.100. Pro Rata Refunds of Student Fees and Charges. Any student who is attending the University for the first time, whose withdrawal date is before the 60 percent point in time for the period of enrollment, and who is receiving some form of federal assistance will be eligible for a pro rata refund of student fees and charges under this section.

11.100.1. First Time Students. First time students include either those who have not previously attended at least one class at the University or who have received a 100 percent refund of tuition and fees, less any permitted administrative fee, under the University's refund policy for previous periods of enrollment.

11.100.2 Withdrawal Prior to Enrollment Period. Eligible students who withdraw from the University prior to the first day of the period of enrollment for which the students have been charged will have their tuition, fees, room, board and other charges reduced to zero. For housing and food service charges, the first day of the enrollment period includes any mandatory orientation programs. However, the University may assess fees. The amount of the fee will be published appropriately.

11.100.3 Withdrawals During First 60 Percent of Enrollment Period. Eligible students who begin but then withdraw prior to 60 percent completion in time of the enrollment period will be refunded that portion of the tuition, fees, room, board, and other charges assessed the students equal to the portion of the period of enrollment for which the students have been charged that remains on the withdrawal date, rounded down to the nearest 10 percent, less any unpaid amount of a scheduled cash payment for the period of enrollment for which the students have been charged. The portion of the enrollment period that remains is calculated by dividing the number of weeks remaining in the period as of a student's withdrawal date by the total number of weeks in the enrollment

period. The University may also assess fees. The amount of the fee will be published appropriately.

11.100.4 Withdrawals After the First 60 Percent of Enrollment Period. Students who withdraw from the University after the 60 percent period in time described above will not receive a refund for tuition and other enrollment fees. However, housing and food service charges will be assessed only through the last day of the week in which the student withdraws. In addition, the students will forfeit their deposits and will pay fees for breaching their housing contracts. The amount of these fees will be published appropriately.

11.100.5 Other Charges. Other charges may include books and supplies issued by the University for which a student is billed. In addition, if the University specifies a separate charge for equipment that the student actually obtains, or if the University refers the student to a vendor operated by or affiliated with the University, such equipment charges will also be included. However, the University may specify in the enrollment agreement the conditions under which equipment is not returnable as long as those conditions remain consistent with applicable federal regulations.

11.100.6 Date of Withdrawal. The date of withdrawal is defined as the date the student notifies the University or the date of withdrawal specified by the student, whichever is later. If the student withdraws without notifying the University, the last recorded date of class attendance as documented by the University will be the date of withdrawal. For students who withdraw but live in University housing, room and board fees will be prorated to the date the student leaves their assigned housing or the academic withdrawal date, whichever is later.

11.110. Other Refunds of Student Fees and Charges. Students not eligible for refunds under the preceding section may be eligible for refunds of student fees and charges under this section.

11.110.1. Tuition and Enrollment Fees. Students who withdraw from the University prior to the first day of the period of enrollment for which the students have been charged will have their tuition, fees,

and other enrollment charges reduced to zero. The University may, however, retain any nonrefundable charges or deposits as long as the charges or deposits are clearly designated as nonrefundable. Students who begin but then withdraw prior to completion of the enrollment period, will be refunded tuition, fees, and other enrollment charges in the following manner:

1. The University will refund 90 percent of the charges if the student submits written notice of withdrawal between the first day of the enrollment period and the first 10 percent in time of the enrollment period;
2. The University will refund 50 percent of the charges if the student submits written notice of withdrawal between the end of the first 10 percent in time and the end of the first 24 percent in time of the enrollment period; or
3. The University will refund 25 percent of the charges if the student submits written notice of withdrawal between the end of the first 25 percent in time and the end of the first 50 percent in time of the enrollment period.

The University will notify all students that notification of withdrawal from the University must be made in writing before the above calculations are applicable. The burden of establishing the withdrawal date rests with the student.

- 11.110.2. Housing Charges. The University will refund all housing rental charges, less a designated nonrefundable deposit, as long as written notification of cancellation is made prior to the publicized date that provides reasonable opportunity to make the space available to other students. Students who withdraw from the University during the contract period will have housing charges assessed only through the date on which the students leave housing. In addition, the students will forfeit their deposits and will pay fees for breaching their contract.
- 11.110.3 Board Charges. The University will refund all board charges, less designated nonrefundable deposit, as long as written notification of cancellation is made prior to the first day of the contract period. Written notification received after the first day of the contract period will result in a pro rata refund of board charges whereby food service charges will be assessed through the last day

of the week in which the student withdraws. Additional board charges may be applied for students who cancel during the contract period and use an inappropriate amount of pro-rata meals for certain meal plans.
