separate application

The baccalaureate degree program in
nursing at Truman State University is
accredited by the Commission on
Collegiate Nursing Education
(<http://www.ccneaccreditation.org>).

“ Truman's Nursing program was an excellent building block for my nursing career. The program challenged my view points, was essential to the growth of my critical thinking abilities, and has prepared me to become an ICU nurse. The faculty quickly became my home away from home parents. Nursing related or not, their doors were always open and they were ready for any conversation. I really enjoyed getting to know them outside of being just my teacher and I know they felt the same towards their students. ”

— SARAH FICK, Class of 2018
Pursued at Truman: Nursing
Employment: Intensive Care Unit at Missouri Baptist Medical Center in St. Louis
Hometown: St. Louis, Missouri
