The average starting salary for MAC graduates is \$52,500.

“The experience as a graduate student in the accounting program at Truman is unmatched. The professional relationships I developed with not only my classmates, but also my teachers, continues to guide my career to new heights. The professors give students tangible advice about how to pick a career in accounting and, if applicable, how to pass the CPA exam. In the MAC program, students are held to a higher standard. I didn't plan on being in Kirksville for five and a half years. But, after an injury on the soccer field and receiving an extra year of athletic eligibility, I noticed an incredible opportunity. I grew personally and professionally in the MAC program.”

– **ISABEL KURZBAN**, December 2019 BS graduate, December 2020 MAC graduate
