of Business Administration
majors have more than one
concentration

“ Truman State's Business Administration program was extremely helpful in preparing me for my professional and personal life after college. The professors are friendly and go the extra mile for their students. They continually pushed me to achieve beyond what I thought was possible. This was instrumental in providing me a thorough understanding of the complex principles driving the world of business. The rigorous courses gave me a diverse set of skills in analytics, creativity, and networking that are fundamental for any business setting. I was involved in student groups, events, and competitions that helped me grow outside the classroom and apply the concepts I studied. I am incredibly thankful for the experiences that challenged me, yet ensured that I am prepared for whatever the future holds. ”

– **QUINN MILLER**, Class of 2020
